Jim Hunt

XIUS is a mobile technology specialist focused on real-time transaction processing in three domain areas. We offer network infrastructure & prepaid, mobile commerce, and mobile advertising.

XIUS believes in innovation, agility, and execution excellence, with customer-centricity as its core value. XIUS offers its solutions in a managed services model thereby enabling customers to launch and monetize services quickly.

Global Firsts

Premium Prepaid Roaming

Easy-to-implement, Software as a service solution which enables operators to provide their subscribers with a competitive alternative to prepaid cards, local operator SIMs, Skype etc

Mobile Touch Transaction – Active Poster

Self-service NFC-enabled retail merchandising device deployed with a fully integrated Centralized Transaction Management System

AdValue

Innovative ad management and delivery platform used to subsidize new or existing programs for prepaid subscribers

Mobile Service Platform

MSP is a modular, stable and highly reliable platform that can support core and specialized mobile services. MSP is a rapidly scalable platform allowing carriers to start small and scale up to millions of subscribers

Convergent IN

World's first network-integrated full-function convergent IN with GSM, CDMA and Wi-Fi

Network Infrastructure & Prepaid

- **Small Operator Infrastructure -> Mobile Services Platform™ (MSP™):** Cost-effective, modular, highly-reliable end-to-end mobile services infrastructure platform supporting core and specialized mobile services
- **Prepaid -> INfinet™:** World Class, carrier-grade Intelligent Network Prepaid serving large Tier 1 as well as regional operators for over 20 years
- **Real-Time Service Control -> INergy®:** Consistent, reliable, and quality service for converting postpaid services to real-time or launching new-age, opt-in value-added services (i.e. mobile advertising, mobile commerce and others)
- **Roaming Management -> Point Solutions:** Portfolio of roaming solutions that enable you to expand your high-margin roaming revenues; steering of roaming, roaming footprint expansion, and prepaid roaming

Mobile Advertising Solution

- **Mobile Advertising -> AdValue™:** Operator-centric mobile advertising management and targeted delivery platform which easily integrates with mobile operator network, protects subscriber privacy, provides unique customer experience through opt-in models with ad-subsidized rate plans, couponing and ad-enabled transaction processing.

Mobile Commerce

- **Mobile Touch Retail Transactions -> Mobile Touch Transaction™ Active Poster™:** Offer all your value-added services to subscribers in an easy, simple, and self-service manner.
- **Channel Management -> Channel Manager™:** A single view into your retail outlets, providing access, oversight, and control needed to confidently execute on your channel strategy.
- **Domestic & International Recharge & Money Transfer -> Payment Manager™:** Real-time retail processing and management platform (incl. subscriber loyalty & rewards, fraud, etc), combining the power or retail with traditional balance
- **PayExtend®:** International Recharge & Money Transfer Service
- **Mobile Banking -> Point Solution:** Converting the subscriber's mobile phone into a complete full-service banking device.

Company Profile

XIUS architects infrastructure and mobile solutions that are flexible, scalable and robust – clearing the way for mobile operators to rapidly deliver differentiated services in order to gain first mover advantage and build subscriber loyalty. XIUS real-time service delivery is vital to operators because in the world of wireless, if you're only keeping pace, you'll never take the lead.

XIUS has been providing innovative telecom services since 1988, and has an implementation foot-print across five continents
